

July 2023

Hitachi Office Fit-Out

Project Description

We were contracted to provide an office fit-out for Hitachi's new branch in Exeter.

Within the space of two months, we built an office block which boasted two new dynamic working offices, and a modern reception space together with staff and customer welfare facilities.

It was important to evaluate the existing space, and ensure that it exhibited maximum usability for employees and customers. We started the process by understanding our client's requirements, existing space and brand.

Project- July 2023

School Refurbishment Projects

Summer Term

Project Description

Over the course of the summer holidays, our team at Afit Commercial Ltd undertook works to transform schools across Devon through a series of impactful refurbishment projects.

With a commitment to enhance educational environments, our skilled team delivered upgrades such as new toilet blocks, refreshed classrooms, and ceiling replacements including the installation of energy-efficient lighting.

Project: 2022

Specsavers Launceston Refurbishment

Project Description

Throughout this project, we installed new carpets, and demolished the existing wall between the entrance and staff room. We also installed a new internal fire-rated timber door with a glazed panel.

Our team designed and delivered a successful project on time and within budget. Our clients knew exactly what they wanted, and after getting to know their brand and business, we made a few suggestions and then we put their design into a reality.

Mercedes Benz Exeter Refurbishment

Project Description

We were approached to transform the Mercedes Benz staff room. We aimed to create a collaborative room where staff could go to unwind after a busy day.

The room boasts a private, quiet area, games room and seating areas for discussions or lunch.

Black Tree Gaming Office Fit-Out

Project Description

Throughout this project, we were aiming for a modern and functional workspace for employees. Our client approached us to change their whole design and room layout. We made a few adaptations, such as relocating the WC facilities and updating the furniture. The end result looked modern and functional.

The staff are now taking full advantage of their facilities, and overall, employee productivity has increased.

Project- 2023

Exeter Science Park Fit-Out

Project Description

Over the years, we have established a long-standing relationship with Exeter Science Park, and its always great doing work for them.

During the summer of 2023, we converted the areas back into well-equipped office and lab spaces. Our team undertook various tasks, including data cabling, flooring, fire protection and partitions.

Project- 2022

Carparison- Office Fit-Out

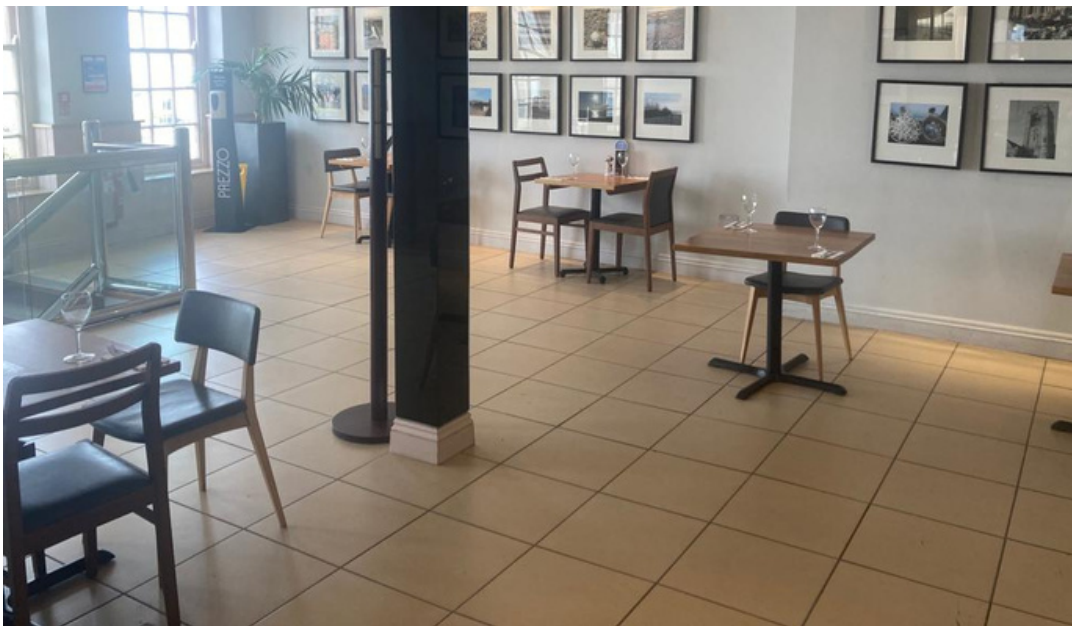

Project Description

Over the years, we have established a long-standing relationship with Carparison in Exeter.

During the summer of 2022, we provided an office fit-out. We redesigned and upgraded the entire layout of the room by relocating a few of the facilities, such as creating a second kitchenette, and upgrading the water supplies. We wanted to make sure the space was fully functional for the team, and that the design fitted in line with the brand.

Prezzo Exmouth- Refurbishment

Before

After

Project Description

We completed a refurbishment for Prezzo in Exmouth. We were aiming for a more inviting and friendly family environment.

We put the restaurant's designs into reality, and then we supplied new furniture, flooring, decorations, lighting and plumbing services. We used our sister companies to reduce hassle and costs from third parties.

Project- 2022

Torbay Pharmaceuticals- Refurbishment

Before

After

Project Description

During 2022, we completed a refurbishment for Torbay Pharmaceuticals. The room needed a big makeover/

Our team listened to our client's designs and ideas, and then we created a modern and up-to-date room, which effectively increased collaboration among staff. We installed a glass meeting room, which gave privacy to those wanting to work alone or to have a discussion with colleagues. We also supplied new furniture, flooring and lighting.

Project- 2023

Babbacombe Model Village- Refurbishment

Project Description

During the summer of 2023, we refurbished the male and female toilets at Babbacombe Model Village. The project was completed on time and within budget.

Whilst the refurbishments were under work, we supplied a DDA-compliant portable toilet for staff and visitors to use.
